

Dear friends and practice members.

As advised by our provincial governing body, we have scaled back to limited practice hours for emergency and acute care patients. I will be in the office and available for care on Tuesdays and Thursdays from noon – 2pm. Anyone in pain will be seen on a first come first serve basis. Due to decreased staffing, we may not be answering the phones. Please leave a message and we will do our best to return your call.

It is our hope that you remain strong and healthy while we all do our part in dealing with the arrival of the Covid-19 threat. Please refer to the KFL&A public health web site for ongoing public health updates and information on how to minimize the risks to both you and your loved ones.

Kristin is suspending her massage therapy practice until the tentative date of April 6th.
We will be updating this message
